

Rebecca Gottesman MD PhD is currently Stroke Branch Chief and Senior Investigator of the Stroke, Cognition, And Neuroepidemiology (SCAN) section at the NINDS Intramural program. Before coming to the NINDS in 2021, she was Professor of Neurology and Epidemiology at the Johns Hopkins University School of Medicine, where she maintains an adjunct faculty appointment. She studies the vascular contribution to cognitive impairment and dementia as well as post-stroke dementia, and has leadership roles in the ARIC Study as well as the DISCOVERY cohort study of post-stroke dementia.
